

Phuong Quang Nguyen  
Former Head of IT department SmartEZ  
107/14 Truong Dinh Street, District 3  
Ho Chi Minh City, Vietnam

9 August 2019,

To Whom It May Concern:

I am pleased to write this recommendation and to offer this recommendation to Dung Hoang Le for the position of intern at your company.

Dung served as a trainee intern for the system security department from July 8, 2019 to Aug 9, 2019. As a supervisor of Dung Le over two months and a half at SmartEZ, Dung has shown not only responsibility, and enthusiasm, but also dedication to his work. During his internship at SmartEZ, Dung has excellently completed all the tasks that were assigned to him and along with great researching and reporting techniques.

The internship program involved researching and developing the servers on AWS for an online banking application. Dung tasks were to install web services to work well with the application such as Liferay, Zabbix, and Kabina, then using Elastic service to monitor the usage of the services that are running on the server. Other than that, Dung has shown a demonstration of cyber-attack and defend in a testing virtual environment using tools provided by Kali Linux OS. Last but not least, Dung learned to recover administration access on both Windows and Linux.

I believe Dung Le would be a great fit for any company that he works at. I strongly recommend Dung Le as I know he is extremely interested in working at your company. I would be glad to answer any questions or discuss further information on my recommendation. I am reachable by email at [quangphuong@gmail.com](mailto:quangphuong@gmail.com) or feel free to call me at +8491-311-9688.

I could not give any stronger recommendation on Dung Le situation. It is an honor to provide him a recommendation and wish him well on his chosen path of career.

Best regard,

Phuong Nguyen,  
Former Head of IT Department of SmartEZ
